Are you... a PhD student, postdoc or 2nd year MSc student?
eager to learn more about your precious proteins?
Yes & yes? **Then you might be a perfect match for the ...**

Instruct.SI workshop

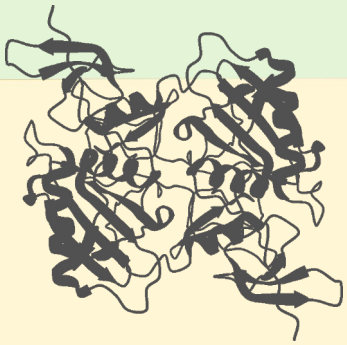

Biophysical Protein Characterization

2–3 December 2026

University of Ljubljana
Faculty of Chemistry and Chemical Technology
Chairs of **Biochemistry** & **Physical Chemistry**
Večna pot 113, Ljubljana, Slovenia

At this **theory & hands-on workshop** we will cover:

CD circular dichroism
to get insight into **secondary structure**

ITC isothermal titration calorimetry
to characterize **interactions**

MP mass photometry
to determine **molecular weight**

nanoDSF nano-differential scanning fluorimetry
to get insight into protein **thermal stability**

Important parameters:
- You can bring **your samples**!
- **No registration fee**, free lunch!
- **Max. 10 participants**.

Application & more info at
https://instruct-eric.si/bioproc2026
Deadline: 1st November 2026
Selection: **motivation letter**.
